5th Grade 3D Printing Project

Project Proposal

Name: _______________________________ Classroom: ______________________

1. TinkerCAD Project Name: ______________________________________________________

2. What are you planning to create?

3. Why are you making this? Why is it important to you? Why is it important to others?

4. Sketch a rough sketch of what your project could look like. If you are using parts other than just the 3D printed plastic, label them.
